

Primary ITE

Tutors' Workshop

The London North East Maths Hub is holding 5 Workshops for ITE tutors exploring how to teach maths. The sessions will focus on how to introduce trainee teachers to the principles of Teaching for Mastery and the Five Big Ideas.

There will be discussion of NCETM resources for ITE tutors on:

- Fluency
- Variation
- Representation and Structure
- Mathematical Thinking
- Coherence

These resources were designed to allow an ITE tutor to run six full sessions on the ideas behind teaching for mastery, aimed at a novice audience where PGCE trainees can explore the concepts and principles themselves, as well as providing suggestions for next steps and devising their own lesson activities.

Five 1.30-3.00pm sessions, throughout Summer Term 2021/22 to prepare for the following academic year
Sessions will take place remotely, via Zoom

Free of Charge
