## ITT Mentor's Network

### Meetings 2021-2022

#### Offering support and working with ITT Mentors

New for 2021-22, we want to strengthen our partnership with the ITT sector. We understand that it can be a challenge for school based mentors to make the time to develop subject based mentorship.

We will work with mentors to:

- Developing the expertise of mentors to support trainees in mastery-related maths lesson design
- Share understanding of Teaching for Mastery.
- Attend Open Mornings - opportunity to observe Mastery Specialists teaching maths and take part in a mini TRG (Teacher Research Group)
- Gain a deeper understanding of your role and challenges and how we can support.

---

The meetings will take place once a term online:

Tue 9th Nov - 3.30-4.30

Tue - 8th March - 3.30-4.30

Tue -7th June - 3.30-4.30
