Mastering Pedagogy Programme

Phimfinch Community Interest Company are an educational initiative dedicated to promoting inclusivity and fostering positive learning environments within the education system.

Who are London North East Maths Hub?

London North East Maths Hub are excited to collaborate with Phimfinch on a new FREE initiative: **Mastering Pedagogy**.

This programme is a transformative professional development opportunity, grounded in **evidence-based practice**, which aims to share understanding about **teaching for mastery**, positively impacting student learning outcomes.

The Mastering Pedagogy Programme is aimed to **all teachers of alternative provisions**. As Maths Hub leads, we will share our understanding of how maths can be taught really well with principles of mastery. Together, we will learn how this pedagogy can transform teaching and learning in all subjects.

If you are interested in enrolling your staff in the Mastering Pedagogy Programme or would like to receive more information, please contact info@phimfinch.co.uk or click on the link below.
